

PRODUCT DATA SHEET PRODUCT DATA SHEET FT200 – Wax and Grease Remover

PRODUCT AT-A-GLANCE

DESCRIPTION

FT200 is a fast evaporating, mild solvent wash used to remove wax, oil, grease and silicone contaminants from all O.E. finishes, Acrylic Lacquer, fresh or uncured enamels and all sanded surfaces.

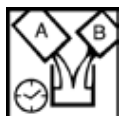

PHYSICAL DATA

One-component 6.2 pounds per gallon.

SUBSTRATES

O.E finishes, Acrylic Lacquer, fresh or uncured enamels and all sanded surfaces.

MIXING

Use at packaged consistency.

APPLICATION

Apply to areas to be painted and adjacent panels one panel at a time. Wipe off with a clean dry cloth before FT200 is allowed to dry. If drying occurs, repeat application.

DRYING

Dry times will vary depending on temperature and humidity. Normal dry times takes place within a few minutes of using the clean dry cloth mentioned in the application process.
