## ULTRA BUFFING SYSTEM SWIRL REMOVER

### DESCRIPTION:

Swirl Remover is designed to remove swirls from both fresh and cured paint surfaces, and leave the highest gloss finish. If the swirls are heavy and/or cured, the best results are achieved by compounding, polishing and then using Swirl Remover.

### DIRECTIONS:

1. Shake well before using.
2. Apply a 1" (25 mm) dab of Swirl Remover to a 2'x 2' (.6m x .6m) section and spread with the polish pad. Buff at 1400 to 2800 rpm with wool or 1200 to 1600 rpm with foam.
3. Buff until the product is mostly gone. Always ensure finishing strokes are front to back.
4. Wipe surface with a Presta Micro Fiber Cloth (# 800135).

### RECOMMENDED PAD:

- Compound first with Presta Ultra Cutting Crème™ Light (#133432 or #133401). Use a Presta Yellow Wool Pad.
- After compounding, use Ultra Swirl Remover and a Presta Blue Foam or Wool Pad.

### FEATURES & BENEFITS

Unique micro-abrasive formula	Removes swirls from fresh and cured paint surfaces
Consistently performing product	Produces a clean, high-gloss finish that doesn't wash away
Contains no fillers, waxes or silicones	Body-shop safe and can be used on freshly cured paints

## PRODUCT FAQ'S:

### **Q1: Is Swirl Remover body shop safe?**

**A1:** Yes, Swirl Remover is body shop safe and contains not silicone, wax, or fillers.

### **Q2: Will Swirl Remover remove sand scratches?**

**A2:** The product is not designed to remove sand scratches but could possibly remove light surface damage or car wash scratches.

### **Q3: How does Swirl Remover remove swirls and holograms?**

**A3:** Swirl Remover uses a micro abrasive that polishes and removes micro scratches and holograms left from polishing and compounding in previous steps.

### **Q4: How do I know what Presta pad to use with Swirl Remover?**

**A4:** Presta products have a color coded banner behind the Presta logo on each bottle that matches the color of the buffing pad that should be used.

### **Q5: Should Swirl Remover be used with a wool or foam pad?**

**A5:** Swirl Remover can be used with either wool or foam and is technician preference what they prefer to use.
