POWER CLEAN™
All-Purpose Cleaner & Degreaser

FEATURES

- VOC compliant. Non-caustic, non-acidic, non-toxic, biodegradable. Can be used indoors with no noxious fumes.
- Perfect for automotive, household and marine cleaning projects.
- Dissolves oil, road grime and brake dust.
- Removes stains from carpets and upholstery.
- Cleans interior surfaces (plastic, vinyl, leather) to make treatments more effective.
- Excellent body shop paint prep: easily removes grease, wax and silicones.
- Will not stain or dull highly polished aluminum wheels.
- Cleans tires, including white walls and raised white letters.

DESCRIPTION

WIZARDS® POWER CLEAN™ is a safe and effective all-purpose cleaner and degreaser. This proprietary formula is excellent at removing bugs, bird droppings, and tough road grime from vehicle surfaces. It can also be used as a spot and stain remover on carpets, upholstery, vinyl and leather. POWER CLEAN™ is also great for cleaning tires and aluminum wheels.

BENEFITS

POWER CLEAN™ is free of harmful caustic soda, bleaches and acids. POWER CLEAN™ will not attack skin like hazardous, cheap cleaners that can damage mucous membranes in the throat if inhaled. When used as directed, POWER CLEAN™ will not stain or etch highly polished wheels and is biodegradable. POWER CLEAN™ penetrates and dissolves oil, road grime and brake dust. It also works great as a body shop paint prep (precleaner) for removing all contaminants such as grease, wax and silicone.

HOW TO USE

Always use on a cool surface. If surface is very dirty allow POWER CLEAN™ to work for about a minute then wipe clean. Stubborn areas may require scrubbing. If desired, follow up with a clean, damp cloth.

IMPORTANT: Always test for colorfastness and surface compatibility; try on a small inconspicuous area before full application.

For body shop prep: Flood surface with POWER CLEAN™, wipe with clean towels until surface is dry and free of debris and contaminants. Then, finish up with #11077 WIZARDS® WASH and water.
